

TDmonthly Top Toy 2008 Awards

Toys You Don't Want to Miss

By [Julie L. Jones](#)

It's not easy deciding which toys and games deserve the most prestigious of **TDmonthly Magazine's** awards. Research over the past year — and more intensively over months of evaluating submissions and nominations for **Positive Toys for a Promising Future: TDmonthly's 2008 Report on Specialty Toys**— has led us to a group of products we are proud to say now carry the title "TDmonthly Top Toy!"

These products in particular are lauded for a combination of coveted qualities that include the following: superior design and materials, safety, excellent play value, innovation in the way the product is conceived and executed, strong sales potential, and environmental and/or social consciousness.

Here are the top specialty toys for 2008:
